**TO: Bridgelux Customers and Authorized Distributors**

**RE: Customer Change Notice:**  
Bridgelux Vero Led Arrays

**Ref: CCN-09212015-Packaging Label Change**

---

This is a Customer Change Notice (CCN) for the Vero LED Array products.

Effective September 28, 2015, Bridgelux will implement new labeling on packaging for Vero Led Array products. Bridgelux will be implementing new package labeling to facilitate order management and product traceability.

The introduction of the new package label has no impact to form, fit, function or operating performance of the LED Arrays. The new package label will be implemented onto the Vero shipping tray, Vero anti-static bag, Vero baby shipping box, and Vero mother shipping box.

Effective October 1<sup>st</sup>, 2015, Bridgelux will implement new ENEC labeling on packaging for Vero Led Array products. In order to comply with ENEC practices and standards, Bridgelux will be implementing specified ENEC labeling on all Vero qualified products. The ENEC label will be placed on the Vero anti-static packaging bag.

During the initial phase in of the Vero packaging labels, customers and resellers may receive a combination of the old and new Vero packaging label until all pre-labeled Vero inventory is exhausted.

If you have any questions regarding the new Vero packaging labels, please contact your Bridgelux Representative.

Regards,

Product Management
