Subject: Product Change Notification

Dear Customer,
our assembly subcontractor AIT informed us that the production of the following packages will be discontinued:

- PQFP64, 14x14x2.0mm

Reason for that is that the total demand for such products has declined to such a level that an economic production can no longer be warranted. We therefore ask for your kind cooperation in the phasing out of the package.

Affected Products:

AS1120	147780006	14778-292
AS1120-T	147780007	14778-293

austriamicrosystems AG is providing the following alternative packages:
PQFP64 → LQFP64

Project Timing of Change

The change will be effective as from now.

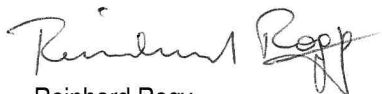

Impact on Quality of the Products

The change of the package has no impact on the quality of the products, because both package types are qualified by austriamicrosystems.

In the attached files you will find detailed information about the alternative packages.
Please discuss all further details with your respective Sales Representative at austriamicrosystems. He will be happy to work out with you the most suitable solution.

With Best Regards

austriamicrosystems AG

Reinhard Rogy
Operations Manager SBU SL
