Final Product/Process Change Notification (FPCN)

Final change notification sent to customers. FPCNs are issued at least 90 days prior to implementation of the change.

ON Semiconductor will consider this change approved unless specific conditions of acceptance are provided in writing within 30 days of receipt of this notice. To do so, contact <quality@onsemi.com>.**DESCRIPTION AND PURPOSE:**

This is a Final Process Change Notification to announce for below contents.

- 1) Changing wire material from gold to copper
- 2) Changing part number from XXXXXX-TL-H or XXXXXX-TL-E to XXXXXX-TL-W.
(See the list of models)
- 3) Changing mold compound from halide to halide free, in case of changing from XXXXXX-TL-E to XXXXXX-TL-W.
There is no change in case of changing from XXXXXX-TL-H to XXXXXX-TL-W.

The product design and electrical specifications will remain identical. A full electrical characterization over the temperature range will be performed for each product to check the device functionality and electrical specifications. Qualification tests are designed to show that the reliability of transferred devices will continue to meet or exceed ON Semiconductor standards.
